

CABAGAGLIO Spa recognizes that, in pursuing its goals, it also has the responsibility to protect the environment by properly monitoring its activities. CABAGAGLIO Spa will promote the use of sustainable resources and it shall deter any activity involving any unnecessary waste of resources and which may cause damage to the environment.

In particular, CABAGAGLIO Spa is committed to:

- comply fully with environmental laws and regulations (D.lgs 152/06 s.m.i.), by cooperating with competent local and national authorities;
- assess the environmental impacts of its productive activities and ensure the protection of the environment through the adoption of the best available and economically viable technologies with a view to continuous improvement;
- make the company's personnel aware of the environmental issues inherent in its productive activity.

To make sure such duties are fulfilled, it is our intention to ensure that environmental protection responsibilities are effectively assigned, accepted and respected at all levels of our organisational structure.

CABAGAGLIO Spa ensures, as far as reasonable and possible, that:

- adequate resources are provided to ensure that environmental protection provisions are maintained;
- the assessment of environmental impacts is regularly performed and reviewed;
- installed systems are maintained to ensure environmental safety and protection;
- provisions for the use, handling, storage and transport of material and substances are such as to ensure the safeguard and protection of the environment;
- all personnel receives the necessary information, education, training and supervision to ensure the environment's protection;
- systems and machinery are equipped with all the necessary devices for the protection of the environment, as required by current standards and defined by the best available technologies for the productive systems in use;
- all personnel's working environment is such as to ensure workers' health and that appropriate provisions are undertaken to ensure the well-being and ergonomics of work;
- the monitoring of activities is implemented in compliance with legal limits and is such as to maintain the defined quality standards;
- all our suppliers comply with current environmental legislation and other regulations concerning the safeguard of environment.

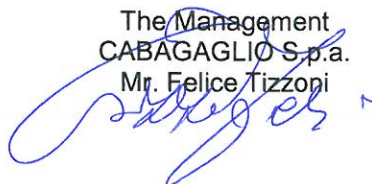

Each worker must:

- take care of the environment and cooperate with the Management in order to fulfil the duties established by law;
- ensure that all measures undertaken to protect the environment are respected.

Waste management is implemented in accordance with regulations, it is collected and stored in proper areas/containers, special waste (waste oil, scrap, etc.) is disposed of in accordance with the modalities and due process of law through qualified entities in possession of all the necessary authorisations and qualifications required.

Environment protection is a matter concerning a heritage of all and therefore everyone in the company has the duty to contribute to the implementation of this environmental policy adopted by our company.

The Management
CABAGAGLIO S.p.a.
Mr. Felice Tizzoni
